## CASCADE AIR BIKE UNLIMITED MAG

Designed with the same tough durable construction as the standard model, the Cascade Air Bike Unlimited Mag has 8 levels of magnetic resistance at the turn of a dial. This magnetic feature gives users more resistance options than any other air bike. Lower levels are a great workout choice for more de-conditioned users, while the top levels provide exceptional high intensity exercise.

Like all Cascade Air Bike models, the Unlimited Mag offers infinite air resistance with a multi-grip handlebar design, especially versatile for upper body workouts. It has the same tough construction and durable features and it is ideal for both users needing low resistance exercise as well as offering a high intensity heart pumping workout for more conditioned athletes. The large foot pegs also make it simple when users only want a great upper body workout.
